

Aguiar David Sebastian

BACKEND DEVELOPER

ABOUT ME

I am a developer with experience in effective leadership within technology teams. My strengths include adaptability and quick learning. I am action-oriented and focused on teamwork to achieve goals.

EXPERIENCE

FULLSTACK DEVELOPER

[14xTech](#) - Jul 2023 – Jan 2024

Migration of a project developed in Visual Basic and SQL Server to a modern environment based on Node.js with MongoDB, Vue.js, and Parse, aiming to improve the system's scalability, performance, and maintainability. Additionally, maintenance and development tasks were performed on the Visual Basic project.

BACKEND DEVELOPER
